3. Can you write a news presentation from the "Eye on the News" section, you can summarize the article, share your thoughts, and even create visual aids to support your presentation.

Good morning/afternoon everyone, today I am going to talk about astronauts. First of all, astronauts are the people that ^{explore} space and they usually stay in space for six months at a time before they return to the Earth. Secondly, astronauts are required to be experts in science subjects, such as biology or physics. They must ^{also} fit the age and ^{height} requirement. Thirdly, being an astronaut is dangerous and ^{so} extremely risky because the spaceship might crash in the middle of the trip. Lastly, have you ever ^{thought} that less than 1% of people get to be an astronaut! It is a very hard job. That is all for my presentation, thank you!

2. Some interesting ideas or facts you have learned or want to share:

There is a lot of children that are suffering because they do not have enough food and are not being protected. We can help them by sending money and food to them.

3. After reading a story from "Health and Happiness", can you share your thoughts and feelings?

I think we should beware of saying hurtful words to our friends and be nice to each other. If you did hurt your friend's feelings, you should apologise to them. I felt more encouraged to be brave and talk to my friends after doing something wrong.

You learned a lot from the article! Your friends must be so lucky to have you around!

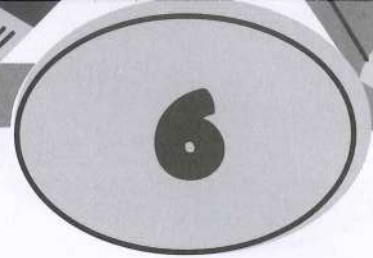

Thank you for your sharing!
